MultiCare Health System is accredited by the Washington State Medical Association to provide continuing medical education for physicians. MultiCare Health System designates this live activity for a maximum of 6.5 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

This activity meets the criteria for up to 6.5 hours of Category I CME credit to satisfy the relicensure requirements of the Washington State Medical Quality Assurance Commission.

*MultiCare CME would like to thank the Dr. George Tanbara Family Endowment for funding Dr. Harnsberger’s presentations.*

## LEARNER OBJECTIVES:

At the end of this activity participants should be able to:

- Identify current WA State newborn screening requirements and why they exist.
- Define circumstances that warrant additional testing and how to obtain it.
- Correctly manage neonates undergoing additional testing or waiting for specialty referral.
- Provide initial counseling to parents regarding newborn screening results and/or additional test results.
- Describe symptoms in a 2 year old that meet DSM-5 criteria for ASD.
- List at least 4 medical causes of challenging behaviors in children with ASD.
- Effectively care for many forms of functional constipation.
- Develop a diagnostic plan and a safe treatment plan for each pediatric age group.
- Appropriately counsel patients and their families about their condition and treatment.
- Recognize certain rheumatic diseases such as JIA, JAS, Lupus, Dermatomyositis, Periodic Fever Syndromes and Vasculitis.
- Conduct appropriate pre-referral work up for suspected rheumatologic illnesses.
- Recognize red flags and understand referral criteria for rheumatology.
- Identify infantile hemangiomas in need of referral and take first steps in counseling/stabilizing the patient.
- Evaluate and treat atopic dermatitis and differentiate this disorder from mimics requiring alternate treatment strategies.
- Identify and differentiate infestations and understand how their treatment varies.
- Feel secure in an office-based approach to a diagnostic history for a pediatric patient with chronic abdominal pain.
- Have a stepwise treatment plan that may be most effective for your patient.
- Choose wisely from the available diagnostic tests, medications and diets for chronic abdominal pain patients.
- Describe the major etiologic categories for neonatal hypotonia.
- Focus the history and examination to determine the most likely neurologic level responsible for a patient’s hypotonia.
- Determine the appropriate next step in evaluation of the hypotonic infant.

This conference is designed to provide a comprehensive review of selected pediatric topics, for pediatricians, family practitioners, and other health care professionals who care for infants, children and adolescents.

### Faculty

- **Sheryl Boon, MD, MSPH**  
  Pediatric Rheumatology  
  Mary Bridge Children’s Hospital & Health Center  
  Tacoma, WA
- **Markus Daniel Boos, MD, PhD**  
  Pediatric Dermatology  
  Seattle Children’s Hospital  
  Assistant Professor  
  Department of Pediatrics  
  University of Washington School of Medicine  
  Seattle, WA
- **Beth Ellen Davis, MD, MPH**  
  Developmental Behavioral Pediatrics  
  Clinical Professor of Pediatrics  
  University of Washington  
  Director of the Clinical Training Unit & UW LEND Center on Human Development and Disability  
  Seattle, WA
- **Erika Finanger, MD**  
  Assistant Professor of Neurology and Pediatrics  
  Co-Director Muscular Dystrophy Association Clinic, Shriners Hospital  
  Associate Director, Pediatric Neurology  
  Residency Program  
  Oregon Health & Science University
- **Janet Harnsberger, MD**  
  Pediatric Gastroenterologist  
  Professor of Pediatrics  
  University of Utah  
  Salt Lake City, UT
- **Michael Raff, MD**  
  Director, Genomics Institute  
  MultiCare Health System  
  Mary Bridge Children’s Health Center  
  Tacoma, WA

### Event Chair

**Thomas Charbonnel, MD**  
Pediatrics  
Tacoma, Washington

### Planning Committee

- **John Clapper, MD**  
  David Estroff, MD  
  Mimi Tutinhasi, MD  
  Lisa White, MPA
