Special Features: MHS is the largest healthcare system in the South Puget Sound region serving as a referral center for adults, pediatrics, and neonates. MHS is recognized as a top Integrated HealthCare System and is a national award winner for excellence in the use of health information technology. MHS supports a physician family practice residency. Pharmacy is highly respected and is supported by decentralization, prescriptive protocols and advance technology. The hospital is located close to a metropolitan area surrounded by mountains and sea offering a variety of cultural and recreational activities.
