The Test of Infant Motor Performance

WORKSHOP DESCRIPTION

This two day workshop is **designed for physical therapists and occupational therapists** working with infants under five months of age. Participants will gain working knowledge of the Test of Infant Motor Performance (**TIMP**), a new test of functional motor behavior in infants from 34 weeks postconceptional age through four months past term.

The **TIMP can be used both in special care nursery settings and in early intervention programs**, thus facilitating communication among caregivers in different settings. **TIMP** items are related to demands for movement placed on infants during daily life interactions. Thus **the test is an assessment of the posture and movement skills needed by infants for daily life activities.**

The **TIMP** assesses:

- * **change** in motor performance over time
- * **identifies** infants at high risk for poor motor outcome
- * **can be used** to plan and assess outcomes of intervention for babies with low scores.

OBJECTIVES

Participants will:

- * Gain knowledge of the theoretical background and research on reliability and validity of the **TIMP** derived from studies of more than 150 infants.
- * Learn appropriate uses of the **TIMP** in practice and research.
- * Develop basic skill in correct administration and scoring of **TIMP** performance from observation of videotaped assessments.

WORKSHOP SCHEDULE

Day 1

- * TIMP Overview
- * Theory and Research on Reliability and Validity
- * Testing High Risk Infants:
 - Ensuring Infant Safety In the NICU
- * Item Administration and Scoring:
 - Video Clips of Infant Testing

Day 2

- * Item Scoring: Video Clips of Infant Testing
- * Use of the TIMP for Diagnosing Delayed Motor Performance
- * Use of the TIMP to Plan and Assess Outcomes of Intervention:
 - OT Intervention
 - PT Intervention

TIMP DEVELOPER/WORKSHOP INSTRUCTOR:

Gay Girolami , PT, PhD, C/NDT is Associate Professor of Physical Therapy in the DPT program at Concordia University Wisconsin. She is also President of the Neuro-Developmental Treatment (NDT) Association and an NDTA, Inc. Coordinator Instructor. Gay is the former Executive Director of Pathways Center. She earned her bachelor's degree in Physical Therapy from Marquette University, a Master of Science in Pediatric Physical Therapy from the University of North Carolina at Chapel Hill and her doctoral in Movement Sciences from the University of Illinois at Chicago. Gay is also the co developer of the Test of Infant Motor Performance (TIMP) and she teaches continuing education courses on assessment and treatment of infants and children with cerebral palsy.

GENERAL INFORMATION

Where: Jackson Hall Medical Center
314 Martin Luther King Jr.
Tacoma, WA 98405

When: Friday – Saturday
Oct 4 – 5, 2013
Both days: 8am to 5:30pm

Mid morning coffee , and afternoon refreshments will be provided each day.

REGISTRATION AND TUITION

Early Bird Special

\$60 will be deducted if postmarked by August 3, 2013
The fee for the two day workshop is \$485 per participant. Fee includes **TIMP Manual, score sheets and age calculation wheel.**

Deadline for registration is two weeks prior to course. Registration will be accepted after deadline on a space available basis. Cancellation will be accepted until that deadline, minus an administration fee of \$75. **NO REFUNDS AFTER DEADLINE.** Please complete the registration form on this brochure and return with full payment.
