

Window Safety Products

Company	Website	Information
Guardian Angel Window	http://www.angelguards.com	Durable steel construction designed to withstand 150 pounds of pressure, Works on double-hung, single-hung, casement and horizontal sliding windows. Guards remove quickly and easily with emergency release buttons. Sliding bars expand to allow the guards to fit widths and heights from 14" to 120". 3 7/8" spacing between bars prevents children from crawling through. Installs easily and securely into window frames using 4 screws.
