

We at ADHC will be losing a family member this month.
Kari's last day will be the 7 of September.
She is a wonderful part of this team and will be missed very much.

In Kari's Words:

To my friends at ADHC:

You have touched my life more than you will ever know! And I am going to miss you more than you will ever know. My heart has grown in ways I didn't know possible as I have watched you love and support each other through words of encouragement and acts of service. I have learned how to give of myself with my whole heart as I have worked with and learned from the example of this amazing staff. (A special thanks to Penny for showing me the ropes this year!) I have enjoyed every minute of being an Activities Coordinator here at ADHC and loved laughing, singing, dancing, getting messy with paint and sharing hugs and tears. Please welcome the new Activities Coordinator with your big loving arms just as you welcomed me just a year ago. Speak Life!

My love, Kari
