

WEAR A MASK. KEEP IT ON.

If you have been asked to wear a mask, please keep it on for the entire visit.

1 Loop the mask around your ears.

2 Adjust the mask's nose piece. Pinch the bendable portion around your nose if the mask has one.

3 Adjust the mask to cover your face and mouth. The bottom edge should fit under your chin.

Don't forget to keep your mask on for everyone's safety.
