

MULTICARE AMBULATORY CLINIC PATIENT AND VISITOR GUIDANCE

To keep you safe and to help slow the spread of COVID-19, we are screening all patients, caregivers and visitors to MultiCare clinics and hospitals.

If a screener is not present at this entrance, you will be screened when you arrive at the clinic.

A staff member at the clinic will ask you questions about symptoms and possible exposure to COVID-19 and may also take your temperature.

Please wear a mask the entire time you are in this building and in our clinics. We will provide you with a mask at the clinic if you arrive without one.

Thank you for your cooperation.
