Enhanced Masking: Wear A Surgical Mask While Onsite, Working

Homemade masks are not approved for use while on-duty for acute care settings. Homemade masks may be worn from the car to the unit and then replaced with a surgical mask.

August 24, 2020 v5

Mask should not be worn around your neck or pushed up to your forehead.

Perform hand hygiene often.

Avoid touching the outside of the mask.

If soiled & torn, or difficult to breathe through, dispose of mask. Obtain a new surgical mask for each shift.

See "Keep Yourself Healthy" for home care.

When talking on the phone, keep mask on or store per guidelines.
