

## Remdesivir Criteria and Ordering Process for Providers, Effective 7-30-20

Effective July 27<sup>th</sup>, remdesivir is being allocated to healthcare facilities across the country in limited supply. Projected demand exceeds the current allocation for MultiCare. When supply is limited, the NIH recommends remdesivir be prioritized for use in those most likely to benefit based on the available evidence to date. The MultiCare COVID Advisory Committee has revised the Emergency Use Authorization (EUA) remdesivir criteria for use below and will periodically update this as the situation unfolds.

MHS EUA Remdesivir Criteria * UPDATED 7-30-20*	
Inclusions	Exclusions
<ul style="list-style-type: none"> <li>- Age &gt; or =18 years</li> <li>- COVID-19 test positive</li> <li>- SpO2 &lt; or = 94% on RA</li> </ul>	<ul style="list-style-type: none"> <li>- Intubated</li> <li>- Duration of symptoms &gt; or = 10 days</li> <li>- ALT &gt; 300 (5 x ULN); AST &gt; 160 (3 x ULN), or total bilirubin &gt;2.8 (2 x ULN)</li> <li>- CrCl &lt; 30 mL/min</li> <li>- Oxygenation improving / at baseline</li> <li>- Patient has received any duration of remdesivir in the past six months</li> </ul>

### Remdesivir Ordering Process

1. Open a progress note and use the smartphrase **.REMDESIVIREUA** to document consent, screening criteria, and patient receipt of the Remdesivir 'Fact Sheet for Patients and Caregivers'
2. Order remdesivir using the panel below. A link to the Fact Sheet can be found in the order details under 'Reference Links' (see page 2)
